

FATHER'S DAY RALLY *Against* PROSTATE CANCER

The largest prostate cancer education and awareness effort in Black America

HERE - AT OUR CHURCH

We are joining the Prostate Health Education Network (PHEN) and churches nationwide to host the "5th Annual Father's Day Rally Against Prostate Cancer."

The Rally is held during regular services where survivors, their family members and those who have lost loved ones to prostate cancer join hands in a special prayer of healing and support.

This spiritual outreach supports our members who are in need and raises prostate cancer awareness for our entire congregation.
